OUTDOOR LIGHTING

# SWAY TABLE BIG GREEN EGG EDITION

## *A Magical Match*

**Some products, you recognize from a distance.  
Their distinguished design, their quality.  
Their story. These products change the  
industry and set new boundaries. They're  
iconic. And sometimes, in a rare occasion, two  
icons meet. And they're the perfect match.  
That's when the real magic happens. Two  
iconic products in one place. One outdoor  
space, one outdoor kitchen and things will  
never be like it was before.**

This year Big Green Egg and in-lite set a new standard of what grilling at night should be.

With **SWAY TABLE Big Green Egg edition**, you get everything you need when preparing the best steak on your iconic Big Green Egg.

The wireless and portable fixture has a matching design with your Big Green Egg and is specially designed so that it can be attached on to your EGG Mates. It has the best light output you can wish for, so that all the colors and details of the food you're preparing are perfectly visible. If you feel like you need less lighting on your kamado, you can easily dim it by hand to your own personal taste. And with a battery lifespan of up to 60 hours, you can slow cook all night long, for multiple nights, without having to worry about the lighting. That's the best of both worlds.

RRP is € 299,-
